PROFESSIONAL SUMMARY

Full Stack Developer with over four years of experience designing and delivering enterprise web applications using React.js, JavaScript, Node.js, Express.js, and MongoDB. Delivered 15+ production modules across two MANN+HUMMEL loyalty platforms serving automotive spare-parts networks in India and South-East Asia. Proficient in RESTful API design, JWT-based authentication, role-based access control, QR-driven reward workflows, and MongoDB aggregation for analytics and reporting, with hands-on ownership of staging and production releases.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Design
- **Backend:** Node.js, Express.js, RESTful APIs, Middleware, API Integration
- **Database:** MongoDB, Mongoose, Aggregation Pipelines, Data Modeling, Query Optimization
- **Security:** JWT Authentication, Role-Based Access Control (RBAC)
- **Tools & Cloud:** Git, GitHub, Postman, VS Code, Render, AWS (Basic)

WORK EXPERIENCE

Associate Software Engineer **Feb 2024 – Present**

KNS Technologies | Bengaluru, Karnataka

- Develop and maintain end-to-end features for two MANN+HUMMEL loyalty platforms for India and South-East Asia using React.js, JavaScript, Node.js, Express.js, and MongoDB
- Delivered 15+ production modules covering user and employee management, QR codes, points, redemptions, vouchers, finance, and reporting
- Secured REST APIs and application screens through JWT authentication and role-based access control for 6+ user roles
- Engineered QR scan validation to reject duplicate, expired, and invalid scans, safeguarding the platform against fraudulent reward claims
- Optimized MongoDB aggregation pipelines powering 6+ report types, improving dashboard and Excel export performance
- Managed release cycles across staging and production environments and resolved critical production issues

Trainee Software Engineer **Aug 2022 – Jan 2024**

KNS Technologies | Bengaluru, Karnataka

- Developed responsive user interfaces and reusable React.js components using JavaScript, HTML5, and CSS3
- Built RESTful APIs with Node.js and Express.js, implementing data persistence through MongoDB and Mongoose
- Contributed to the launch of the MANN Hamrahi India platform, delivering its QR scanning and reporting features
- Diagnosed and resolved application defects, collaborating through Git, GitHub, and peer code reviews

PROJECTS

MH Privilege – SEA **Jan 2024 – Present**

MANN+HUMMEL Enterprise Loyalty Platform

Multi-country loyalty platform for automotive spare-parts networks across South-East Asia, with QR-based reward earning and digital redemption.

- Built User and Employee Management with onboarding, KYC approval, and role- and region-based mapping
- Implemented JWT-based role-based access control (RBAC) to restrict screens and APIs by user role
- Developed a product/SKU master with bulk Excel upload and bulk QR code generation mapped to product batches
- Implemented QR scan validation to block duplicate, expired, and invalid scans
- Built a configurable schemes and points engine with wallet, ledger, and points expiry
- Developed multi-level redemption approvals and voucher creation, allocation, and tracking
- Created user, employee, scan, points, redemption, and voucher reports with sortable dashboards and Excel exports
- **Tech:** React.js, JavaScript, Node.js, Express.js, MongoDB, REST APIs

MANN Hamrahi – India **Mar 2023 – Present**

MANN+HUMMEL Genuine Parts Loyalty Platform

Loyalty platform rewarding distributors, retailers, and mechanics for buying genuine parts through QR verification and digital redemption.

- Built User and Employee Management with KYC approval and JWT-based role-based access control
- Developed QR scanning, verification, and tracking with scan history by user, product, date, and location
- Implemented a points wallet, transaction ledger, and digital redemption workflows with approvals
- Built a Finance module for points liability, redemption settlements, and payout reconciliation
- Created reports and sortable dashboards with KPI summaries, filters, pagination, and Excel exports
- Handled staging and production deployments and production support, including query optimization
- **Tech:** React.js, JavaScript, Node.js, Express.js, MongoDB, REST APIs

OurSpace **Feb 2021 – Apr 2022**

MERN Stack Social Media Application (Personal Project)

- Built a full-stack social media application with a React.js frontend, Node.js/Express.js backend, and MongoDB database
- Implemented user authentication and profile management
- Developed posts, likes, comments, reels, and friend request features
- Built one-to-one private messaging with backend REST APIs and a responsive chat interface
- **Tech:** React.js, Node.js, Express.js, MongoDB, REST APIs

EDUCATION

B.Tech, Computer Science and Engineering **Graduated Jun 2022**

Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV) | Bhopal, Madhya Pradesh
